Rolling Plan for the Republic of Albania

Basic Policy of Assistance

Assistance for Equitable Growth and Sustainable Economic Development

Priority Area 1	Environment												
Development Issues 1- 1 Environment	industrialization, caused a negative impact, on the natural environment and people's livelihoods. As an EU candidate country, the Government of Albania is obliged to comply with the EU environmental standards and rules.			[Strategy] As policy formulation and legal system development related to environmental measures are being carried out in accordance with EU standards with the objective to future EU accession, it is appropriate that these are implemented by European donor countries, including EU. Japan will support Albania's environmental efforts through financial and technical cooperation in areas where it has a comparative advantage, such as sewage development, waste management, and natonal park management.
