

Rolling Plan for the Republic of Albania

As of April 2024

Basic Policy of Assistance		Assistance for Equitable Growth and Sustainable Economic Development										
Priority Area 1		Environment										
Development Issue 1-1 Environment	[Background and current situation] Albania aims for competitive and sustainable economic development. Nevertheless, the rapid urbanization coupled with industrialization, caused a negative impact, on the natural environment and people's livelihoods. As an EU candidate country, the Government of Albania is obliged to comply with the EU environmental standards and rules.			[Strategy] As policy formulation and legal system development related to environmental measures are being carried out in accordance with EU standards with the objective to future EU accession, it is appropriate that these are implemented by European donor countries, including EU. Japan will support Albania's environmental efforts through financial and technical cooperation in areas where it has a comparative advantage, such as sewage development, waste management, and natonal park management.

Priority Area 2		Equitable Growth										
Development Issues 2 - 1 Equitable Growth	[background and current situation] While the national poverty rate has been halved, the agriculture sector which accounts for the majority of rural labor force, is struggled with the low level of productivity. Social service delivery and infrastructure development are yet to be adequate. The poverty rate in rural area remains higher than in urban areas. The country is challenged with a rapid urbanization and rural-urban migration which require to secure employment opportunities and to address the infrastructure constraints. the equitable growth by filling the gap between rural and urban areas is essentially			[strategy] Japan will support Albania's efforts towards equitable growth through mainly technical cooperation that aims to improve human and organizational capacity in the fields such as agricultural cooperatives, local industries, and tourism, in which Japan has a comparative advantages. Japan will also support the development and renovation of educational facilities, mainly in the local social sector.
